

MINERS OBJECT
TO AGREEMENTCommittee Turns Down Plan to
Settle Dispute.

CONVENTION MAY BE CALLED

Reasons for Refusing Compromise Are
Based on Terms of Contract Period,
Abolition of Sliding Scale and Fail-
ure to Recognize the Union to the
Extent Demanded—President White
Favors Accepting the Terms

New York, May 3.—Calling of a
miners' convention to approve or dis-
approve of the subcommittee's agree-
ment for settlement of the wage and
other differences between miners and
operators in the anthracite coal fields
practically was decided upon by the
committee of miners' representatives
and members of the boards of the
three anthracite districts affected.

It will be decided whether another
joint conference with the operators
will first be sought by the miners to
see if further concessions can be ob-
tained or whether an immediate call
be issued for a miners' convention.

This action followed rejection by
the miners' full committee, at the
joint conference with the operators' com-
mittee of ten, of the tentative
agreement for a settlement reached re-
cently between the subcommittees of
the two interests.

If a convention is called, as seemed
certain, William Green, who repre-
sented President White of the United
Mine Workers in conference, said it
could be convened within four days
after notice of it was given.

Mr. Green expressed the opinion
that if a convention were held at once,
before another conference with the op-
erators, it would uphold the action of
the miners' full committee and vote
disapproval of the subcommittee agree-
ment.

Want Agreement Acted On.

In their statement and accompa-
nying memoranda the operators' com-
mittee indicated a disinclination to meet
again with the miners' representatives
until after the latter had endeavored
to procure ratification of the pending
settlement agreement.

Objection to the agreement, which
had been approved by President John
P. White of the United Mine Workers
of America, was based on the tenure
of the contract period, which was for
four years; the abolition of the sliding
scale and failure to recognize the
union to the extent demanded. A ma-
jority of the members of the general
committee favored a two-year contract
with the mine operators and they
stated that this was the principal ob-
jection to the tentative agreement.

Mr. Green says in a statement that,
while there are some distinguishing
features in the proposition which are
an improvement over the contract
heretofore prevailing, nevertheless
features of it are so objectionable as
to overshadow, in the opinion of the
anthracite mine workers, the improve-
ments.

The anthracite operators' committee
says in a statement:

"The committee of anthracite op-
erators entered the joint conference
with the full expectation that the
agreement recommended by the joint
subcommittee would be ratified by the
mine workers' committee and would
be accepted later by the body of an-
thracite mine workers."

TEASPOONS FAVORITE DIET

Surgical Operation Reveals Insane
Man Swallowed Nineteen.

Bangor, Me., May 3.—A surgical
operation has just been found neces-
sary to recover a lot of teaspoons
which disappeared one at a time from
a ward of the Eastern Maine insane
hospital here. When the mystery was
solved by the discovery that one of
the patients was swallowing the mis-
sing articles Doctors W. C. Mason and
E. B. Sanger recovered from the man's
stomach nineteen teaspoons.

ABANDON SEARCH FOR DEAD

Believed Impossible to Recover More
Titanic Victims.

Halifax, N. S., May 3.—White Star
line officials here had a lengthy con-
ference with Captain Larnier of the
Mackay-Bennett discussing the utility
of a proposal to send out a third
steamer, the Seal, to search for fur-
ther bodies of Titanic victims. Cap-
tain Larnier expressed the conviction
that it would not be possible to find
any more. The idea, it is likely, will
be abandoned.

ENCOURAGES TAFT MANAGERS

Massachusetts Result Stirs Them to
Greater Activity.

Washington, May 3.—Whatever else
may be said of the Massachusetts re-
sult has improved the Taft fortunes.
Had Roosevelt got the lead in that
state the Taft campaign would have
been weakened, but with Massachu-
setts favoring him, although by a small
majority, he will make a fight in all
the remaining states and his managers
are saying that he will go to Chicago
with a majority of between 100 and
150.

FAILS TO REVEAL
MATERIAL FACTSTestimony in New York Relating
to Titanic Wreck.

SMITH EXAMINES WITNESSES

Senatorial Investigation Elicits No
New Information Tending to Confirm
Report That News of Titanic Dis-
aster Was Received by White Star
Line Earlier Than Made Public.

New York, May 3.—Testimony taken
by Senator William Alden Smith of
Michigan, chairman of the senate com-
mittee investigating the Titanic dis-
aster, did not reveal any facts tending
to confirm the report that news of the
Titanic disaster, which the White Star
line made public on Monday evening,
April 15, had reached New York early
that morning.

To determine this question was the
principal object of the senator's visit
here and he had before him in private
hearing John Bottomly, vice president
of the American Marconi company; E.
J. Dunn, the New York merchant who
testified in Washington that he had
been informed by the son of a Western
Union operator that a message had
been received in New York on Mon-
day morning telling of the Titanic's
fate, and the operator himself, who
returned to the city, Mr. Smith said,
after having been absent since Sunday
night.

These two witnesses were disposed
to be recalcitrant, the senator said,
and their examination was very un-
satisfactory. He declared he would
call the operator again, when he hoped
to obtain more definite information.

Vice President Bottomly, according
to his stenographic testimony, dis-
claimed all knowledge of any such
news being received here at the time
reported.

"Do you know of your own knowl-
edge, or have you been informed by
any person by wire, wireless, cable,
letter, word of mouth or otherwise,
that information regarding this disaster
reached any office of your company
or the White Star line on Monday,
April 15, prior to 10 o'clock?" was the
question Senator Smith put to him.

"No, I don't know of any such mes-
sage," Mr. Bottomly replied, adding
that the Marconi company received its
first message of the sinking of the Ti-
tanic about 6 p. m.

The witness testified that he had
made every effort to get news of the
disaster from the Carpathia and had
sent instructions to all wireless sta-
tions asking them to furnish the com-
pany with all the news they could ob-
tain. He denied he had in any way
tried to influence Cottam and Bride,
the wireless operators on the Carpa-
thia, in regard to the sending and re-
ceipt of information until the vessel
had passed quarantine, when, with
Mr. Marconi's consent, he had given
wireless permission to Bride to sell
his story.

Senator Smith said that he expected
to take the testimony of a man
"cognizant of the fact that members
of the crew could not turn a certain
bolt in one of the watertight compart-
ments, on which depended its effi-
ciency."

Senator Smith announced he had
taken the sworn testimony of Mrs. J.
Stuart White of Briar Cliff, N. Y., who
left the Titanic in the second or third
boat which put out from the ship.

"Mrs. White said this boat contained
twenty-three women and three men,"
Senator Smith declared. "One of the
men, she said, was a seaman, the other
two said they had never handled an
oar in their lives and knew nothing
about rowing."

"Mrs. White swore that these men
were neither kind nor courteous; that
they lighted pipes or cigarettes, not-
withstanding that there was ignitable
material aboard."

ASTOR'S BODY REACHES HOME

Funeral Services to Be Held at Noon
Saturday.

Rhinebeck, N. Y., May 3.—The body
of Colonel John Jacob Astor arrived
at Ferncliffe, the Astor estate, near
this village, and funeral services will
be held here from the Church of the
Messiah at 12 o'clock Saturday.

Every flag in the village was at half
mast when the body arrived, accom-
panied by Vincent Astor.

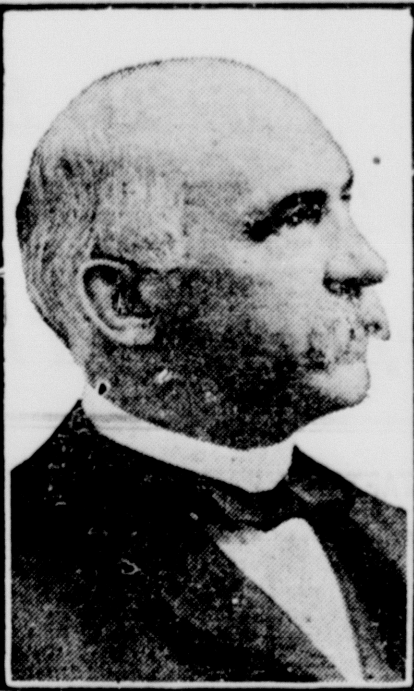

The services Saturday will be con-
ducted by Rev. Ernest Saunders, pas-
tor of the church. A special train will
bring a large funeral party from New
York.

ASKS FOR \$50,000 DAMAGES

First Suit Resulting From Sinking of
Titanic.

New York, May 3.—Papers in the
first suit for damages brought by a
relative of a Titanic victim were filed
in the federal district court here. The
suit, in admiralty, is brought by Mrs.
Louise Robins, widow of Victor Robins,
Colonel John Jacob Astor's valet, and
is that in which the testimony of J.
Bruce Ismay and officers of the sunken
steamer is desired. It charges negli-
gence on the part of the Oceanic
Steam Navigation company and asks
for \$50,000 damages and costs.

SENATOR BURNHAM.

One of the Conferees
On the Pension Measure.

ON BASIS OF SENATE BILL

Conferees Agree on General Service
Pension Measure.

Washington, May 3.—Conferees of
both houses of congress on the general
service pension bill reached an agree-
ment on the basis of the senate bill
with some increases for advanced age
and length of service. This action is
said to assure the enactment of the
general service bill into law.

The conferees were Senators Mc-
Cumber, Burnham and Gore and Rep-
resentatives Sherwood, Adair and Sul-
loway. Messrs. Gore and Sulloway re-
fused to sign the report, the former on
the ground that the senate was con-
ceding too much and the latter be-
cause it does not concede enough.

The increases grant \$18 a month to
soldiers sixty-six years old who served
two years and a half and \$19 to those
who served three years. Those seven-
ty years old who served one and a
half years get \$21.50; two years \$23,
two and a half years \$24; three years
\$25. Those of seventy-five years who
served one and a half years get \$27,
two and a half years \$30.

BUSY CONSIDERING
ADJOURNMENT PLANSLeaders in Congress Realize
Much Remains to Be Done.

Washington, May 3.—The leaders in
congress are busy considering plans
for adjournment. Many of them ad-
mit the prospect of completing the
work of the session that is absolutely
necessary in time to bring about an
adjournment before June 15 is not
greatly promising. Only about six
weeks are left to execute this pro-
gram. In that time much important
business is to be transacted.

The Lorimer case is one of the mat-
ters that will have to be disposed of.
It will provoke a lot of debate. The
reports of the special committee have
not yet been submitted. Republican
leaders admit they cannot afford to
allow this case to go over until the
next session, with a political campaign
intervening.

They say Roosevelt's victory in Illi-
nois primarily was due to the Lorimer
case, on which he made his campaign.
It already has been charged on the
senate floor that there is a plan to put
the case over until the next session.
This charge alone is sufficient, the
leaders say, to compel the senate to
force the case to a settlement before
the adjournment of the present session
or the Republicans would suffer in the
campaign, especially in Illinois.

None of the tariff bills as yet has
been passed and only one, the steel
bill, has been given any important con-
sideration. There is much yet to be
said on that measure before a vote is
taken. Most of the important ap-
propriation bills have not been brought
to the senate. Some of them have not
even been reported in the house.

FLAG TRAMPLING "FRAMEUP"

Socialists' Cause.

Washington, May 3.—Anarchists, not
Socialists, were responsible for the
flag trampling incident in New York
during the May day celebration, ac-
cording to Representative Berger of
Wisconsin, the Socialist member of
congress. He denounced it as a
"frameup" by the Industrial Workers
of the World to bring the Socialists'
cause into disrepute.

"The men who did that were fools,"
declared Mr. Berger. "Socialism is
not anti-national. The Socialists are
the best patriots we have."

Government Asks \$116,000 From Fed-
eral Refining Company.

New York, May 3.—Suit against the
Federal Sugar Refining company for
\$116,000 was filed by the government
in the federal district court here. The
amount represents alleged back duties
on importation of sugar entered at the
custom house between 1902 and 1909,
a difference due to the recently dis-
covered errors in the original liquidat-
ed weights.

HOUSE PASSES
VARIOUS BILLSMany Important Measures Deal
With the Tariff.

PUT IT UP TO THE SENATE.

Question Whether Much of the Pro-
posed Legislation Is Too Radical
Will Be Thruashed Out There—Gen-
uine Regret Over the Defeat of Sen-
ator Bourne of Oregon.

By ARTHUR W. DUNN.

Washington, May 3.—[Special.]—The
Democrats are doing things. Not only
have they passed several bills reduc-
ing the tariff, but they have also put
over a great deal of legislation to the
senate. Much of this legislation has
been attached to appropriation bills in
one form or another. The army bill
was loaded with the most far-reaching
and important measures for reorganiz-
ing the army that have been proposed
for years. Other appropriation bills
have also contained much in the way
of legislation. However, it remained
for the postoffice bill to be loaded with
the most important legislation that has
passed congress in many years.

The parcels post and the inaugura-
tion of a movement for spending federal
money for roadmaking are epoch-
making because of the important de-
parture from past lines. The begin-
ning of taking over of public utilities
can be seen in the express legislation.
The publication of so many names in
connection with newspapers and peri-
odicals is also far ahead of anything
that has been attempted in the line of
publicity in many years.

Is It Too Radical?

Of course the question to be thrashed
out in the senate is whether or not the
proposed legislation is too radical;
whether it does not open the way for a
paternalistic government that the
country will not want when it is tried.
Whatever the verdict may be there
will never be a retrograde movement.
The good roads movement has been
progressing year by year; the parcels
post has been advancing; the move-
ment toward government ownership of
express companies and telegraph lines
has been growing at a rapid pace. It
is the tendency of the times.

Cowards in the House?

No one resents more than Mann, the
minority leader, imputations upon the
character of the house of representa-
tives. "There are times," he said re-
cently, "when I have the highest re-
spect for the membership of this house
and the house as a body. But there
are times when I can see more cowards
in the house than can be found in an
equal number of men anywhere else in
the country."

That was when they were not voting
Mann's way. In fact, they were voting
for what Mann thought were danger-
ous propositions in the postoffice bill.
Mann would resent having any one
else say the same thing about the house
membership.

Halcyon Days For Uncle Joe.

Now comes Bartlett of Georgia say-
ing on the floor of the house: "We
went before the country protesting
against Cannon and his rules. We
owe our majority in a great measure
to that issue. But Cannon in his pal-
est days of czarism, and Dabzell, so
long head of the rules committee, never
yet brought into this house a rule so
far-reaching and revolutionary as this."

Bartlett was speaking of the rule
which permitted so much legislation
on the postoffice appropriation bill.
Bartlett said very harsh things of
Uncle Joe in days gone by, but now he
and others like him find the former
speaker quite a paragon in comparison
with those who denounced him so
strenuously. And Uncle Joe lives to
enjoy it.

Mourn For Bourne.

Genuine regret prevailed over the de-
feat of Senator Bourne of Oregon.
Leader of the progressives, ardent, in-
sistent, hard working man for that
cause, he never offended a regular, and
the regulars were just as sorry for his
defeat as any progressive. So were the
Democrats. Bourne was very popular
in the senate.

Drastic Liquor Law.

There is every indication that con-
gress is going to give the country an
object lesson in drastic liquor legisla-
tion which will demonstrate whether
high license and strict regulation is
better than prohibition. In Washing-
ton the number of saloons is to be
reduced. They are to be taken out of
the slums, the alleys and residence
districts. They are to be removed
from near schools or churches. They
are to have screens removed from
doors. They are greatly restricted as
to sale of liquor to minors and habi-
tual drunkards. That such a bill will
pass there can be little doubt. In fact,
a straight prohibition bill might pass
this congress.

Rucker at His Best.

There has not been uttered in the
house anything better than a speech
of Congressman Rucker of Colorado in
an effort to straighten out the com-
plications which constantly arise be-
cause there is another, the man from Mis-
souri. It took nearly three columns
of the Congressional Record, but it
was a gem in its way.

Worry.

"Stop worrying" is a physician's best
prescription and the hardest to take.—
Atchison Globe.

W. S. CARTER.

President of the Brother-
hood of Locomotive Firemen.

FIREMEN ALSO ASK RAISE

Make Demands on Fifty Roads East
of Chicago.

New York, May 3.—Following close-
ly upon the agreement of the engi-
neers and managers of the fifty rail-
roads east of Chicago to submit to
arbitration the demands of the engi-
neers for increased wages and changes
in their hours of work the locomotive
firemen and hostlers of the same rail-
roads submitted to the managers a
schedule requesting additional pay,
changes in hours and in some cases
the employment of assistant firemen.

W. S. Carter of Peoria, Ill., presi-
dent of the Brotherhood of Locomotive
Firemen and Enginemen, presented
the demands to J. C. Stuart, chairman
of the conference committee of the
railroad managers, who told him the
managers would be called to meet as
soon as possible to discuss the matter.

TAFT LETTER STIRS
BRITISH STATESMENQuestion of Reciprocity Coming
Before Commons.

London, May 3.—Questions will be
addressed to Premier Asquith direct-
ing his attention to the letter on reci-
procity written by Mr. Taft to Theo-
dore Roosevelt a year ago last Jan-
uary and recently made public; and
suggesting the urgency of the policy
for imperial preference to defeat
American designs.

Another question, of which notice
has been given, will ask whether the
government was aware of President
Taft's intention to "make Canada only
an adjunct of the United States," when
they instructed Ambassador Bryce to
assist the passage of the reciprocity
agreement between the United States
and Canada. An effort will be made
to raise the whole question on motion
for an adjournment Monday evening.

ALLEN THREATENED TO KILL

Witness Says Bandit Intended Mur-
dering Foster if Convicted.

Wytheville, Va., May 3.—"I'll kill
Bill Foster before the sun goes down
tomorrow night if I'm convicted,"
Floyd Allen, the first of the Hills-
ville courthouse assassins now on trial
here for his life, was charged with
making this remark before the shoot-
ing on March 14, according to the tes-
timony of I. B. Weddell of Montgom-
ery, one of the first day's witnesses
for the prosecution. On cross exami-
nation Weddell stuck to his story,
though he admitted no other persons
were present during his conversation
with Allen.

TAFT WILL GIVE
BATTLE IN OHIO

POSTOFFICE BILL PASSES

Only Five Votes Against Measure in
the House.

Washington, May 3.—The postoffice
appropriation bill, carrying approxi-
mately \$275,000,000, was passed by the
house, 227 to 5. The measure carried
in addition to the appropriations nec-
essary for the conduct of the depart-
ment a number of radical provisions.

Among these were federal aid for
good roads, the compulsory publica-
tion by newspapers, magazines and
periodicals of the names of owners
and the establishment of a parcels
post in connection with a rural free
delivery system.

The good roads provision added be-
tween sixteen and eighteen million
dollars to the appropriation and this
amount, it is expected, materially will
be increased in the next postoffice
measure.

UNABLE TO REPAIR BREAK

Water Steadily Pouring Through
Levee in Louisiana.

New Orleans, May 3.—Hope of patch-
ing the break in the Mississippi river
levee at Torras, La., expected to cause
the worst situation in Lower Missis-
sippi flood history, has been aban-
doned. Water is rushing through the
800-foot breach at the rate of twelve
miles an hour and several small towns
are inundated.

Baton Rouge has been made the
concentration point for persons made
homeless by the Torras break. Hun-
dreds were taken there by steamboats
that rescued them from places where
they were marooned.

It is estimated that 115,000 homeless
persons are being taken care of.

WILL BE HELD AT SEATTLE

Governors Call Northwestern Develop-
ment Congress.

Seattle, May 3.—Seven governors of
Northwestern states issued a joint
proclamation calling a Northwest De-
velopment congress to be held in Se-
attle June 3 to 8.

The congress is to plan a campaign
and suggest legislation to assist the
Northwestern states in a more rapid
development and to stem the tide of
emigration to Canada.

The proclamation was signed by M.
F. Hay, governor of Washington; O.
A. Eberhart, Minnesota; John Burke,
North Dakota; R. S. Vessey, South Da-
kota; Edwin Norris, Montana; J. H.
Hawley, Idaho, and Oswald West, Ore-
gon.

SNOW DELAYS FARM WORK.

Bozeman, Mont., May 3.—It has been
snowing steadily for twenty-four hours
here and the fall now is about eleven
inches deep on the level. This is the
third heavy snow storm in the Gallat-
in valley in the last three weeks and
will delay farm work in this wheat
belt. It probably will be May 15 be-
fore the ground is broken for spring
crops.

MEXICO IS SEEKING PEACE

Committee From Chamber of Deputies
Will Consult With Orozco.

Mexico City, May 3.—A committee
of the chamber of deputies was ap-
pointed by the speaker to work for
the pacification of the country. A
subcommittee will be chosen to go
to the North and confer with the
rebels under Orozco.

MINERS OBJECT
TO AGREEMENTCommittee Turns Down Plan to
Settle Dispute.

CONVENTION MAY BE CALLED

Reasons for Refusing Compromise Are Based on Terms of Contract Period, Abolition of Sliding Scale and Failure to Recognize the Union to the Extent Demanded—President White Favors Accepting the Terms

New York, May 3.—Calling of a miners' convention to approve or disapprove of the subcommittee's agreement for settlement of the wage and other differences between miners and operators in the anthracite coal fields practically was decided upon by the committee of miners' representatives and members of the boards of the three anthracite districts affected.

It will be decided whether another joint conference with the operators will first be sought by the miners to see if further concessions can be obtained or whether an immediate call be issued for a miners' convention.

This action followed rejection by the miners' full committee, at the joint conference with the operators' committee of ten, of the tentative agreement for a settlement reached recently between the subcommittees of the two interests.

If a convention is called, as seemed certain, William Green, who represented President White of the United Mine Workers in conference, said it could be convened within four days after notice of it was given.

Mr. Green expressed the opinion that if a convention were held at once, before another conference with the operators, it would uphold the action of the miners' full committee and vote disapproval of the subcommittee agreement.

Want Agreement Acted On.

In their statement and accompanying memoranda the operators' committee indicated a disinclination to meet again with the miners' representatives until after the latter had endeavored to procure ratification of the pending settlement agreement.

Objection to the agreement, which had been approved by President John P. White of the United Mine Workers of America, was based on the tenure of the contract period, which was for four years; the abolition of the sliding scale and failure to recognize the union to the extent demanded. A majority of the members of the general committee favored a two-year contract with the mine operators and they stated that this was the principal objection to the tentative agreement.

Mr. Green says in a statement that, while there are some distinguishing features in the proposition which are an improvement over the contract heretofore prevailing, nevertheless features of it are so objectionable as to overshadow, in the opinion of the anthracite mine workers, the improvements.

The anthracite operators' committee says in a statement: "The committee of anthracite operators entered the joint conference with the full expectation that the agreement recommended by the joint subcommittee would be ratified by the mine workers' committee and would be accepted later by the body of anthracite mine workers."

TEASPOONS FAVORITE DIET

Surgical Operation Reveals Insane
Man Swallowed Nineteen.

Bangor, Me., May 3.—A surgical operation has just been found necessary to recover a lot of teaspoons which disappeared one at a time from a ward of the Eastern Maine insane hospital here. When the mystery was solved by the discovery that one of the patients was swallowing the missing articles Doctors W. C. Mason and E. B. Sanger recovered from the man's stomach nineteen teaspoons.

ABANDON SEARCH FOR DEAD

Believed Impossible to Recover More
Titanic Victims.

Halifax, N. S., May 3.—White Star line officials here had a lengthy conference with Captain Larner of the Mackay-Bennett discussing the utility of a proposal to send out a third steamer, the Seal, to search for further bodies of Titanic victims. Captain Larner expressed the conviction that it would not be possible to find any more. The idea, it is likely, will be abandoned.

ENCOURAGES TAFT MANAGERS

Massachusetts Result Stirs Them to
Greater Activity.

Washington, May 3.—Whatever else may be said of the Massachusetts result it has improved the Taft fortunes. Had Roosevelt got the lead in that state the Taft campaign would have been weakened, but with Massachusetts favoring him, although by a small majority, he will make a fight in all the remaining states and his managers are saying that he will go to Chicago with a majority of between 100 and 150.

FAILS TO REVEAL
MATERIAL FACTSTestimony in New York Relating
to Titanic Wreck.

SMITH EXAMINES WITNESSES

Senatorial Investigation Elicits No New Information Tending to Confirm Report That News of Titanic Disaster Was Received by White Star Line Earlier Than Made Public.

New York, May 3.—Testimony taken by Senator William Alden Smith of Michigan, chairman of the senate committee investigating the Titanic disaster, did not reveal any facts tending to confirm the report that news of the Titanic disaster, which the White Star line made public on Monday evening, April 15, had reached New York early that morning.

To determine this question was the principal object of the senator's visit here and he had before him in private hearing John Bottomly, vice president of the American Marconi company; E. J. Dunn, the New York merchant who testified in Washington that he had been informed by the son of a Western Union operator that a message had been received in New York on Monday morning telling of the Titanic's fate, and the operator himself, who returned to the city, Mr. Smith said, after having been absent since Sunday night.

These two witnesses were disposed to be recalcitrant, the senator said, and their examination was very unsatisfactory. He declared he would call the operator again, when he hoped to obtain more definite information.

Vice President Bottomly, according to his stenographic testimony, disclaimed all knowledge of any such news being received here at the time reported.

"Do you know of your own knowledge, or have you been informed by any person by wire, wireless, cable, letter, word of mouth or otherwise, that information regarding this disaster reached any office of your company or the White Star line on Monday, April 15, prior to 10 o'clock?" was the question Senator Smith put to him.

"No, I don't know of any such message," Mr. Bottomly replied, adding that the Marconi company received its first message of the sinking of the Titanic about 6 p. m.

The witness testified that he had made every effort to get news of the disaster from the Carpathia and had sent instructions to all wireless stations asking them to furnish the company with all the news they could obtain. He denied he had in any way tried to influence Cottam and Bride, the wireless operators on the Carpathia, in regard to the sending and receipt of information until the vessel had passed quarantine, when, with Mr. Marconi's consent, he had given wireless permission to Bride to sell his story.

Senator Smith said that he expected to take the testimony of a man "cognizant of the fact that members of the crew could not turn a certain bolt in one of the watertight compartments, on which depended its efficiency."

Senator Smith announced he had taken the sworn testimony of Mrs. J. Stuart White of Briar Cliff, N. Y., who left the Titanic in the second or third boat which put out from the ship.

"Mrs. White said this boat contained twenty-three women and three men," Senator Smith declared. "One of the men, she said, was a seaman, the other two said they had never handled an oar in their lives and knew nothing about rowing."

"Mrs. White swore that these men were neither kind nor courteous; that they lighted pipes or cigarettes, notwithstanding that there was ignitable material aboard."

ASTOR'S BODY REACHES HOME

Funeral Services to Be Held at Noon
Saturday.

Rhinebeck, N. Y., May 3.—The body of Colonel John Jacob Astor arrived at Ferncliffe, the Astor estate, near this village, and funeral services will be held here from the Church of the Messiah at 12 o'clock Saturday.

Every flag in the village was at half mast when the body arrived, accompanied by Vincent Astor.

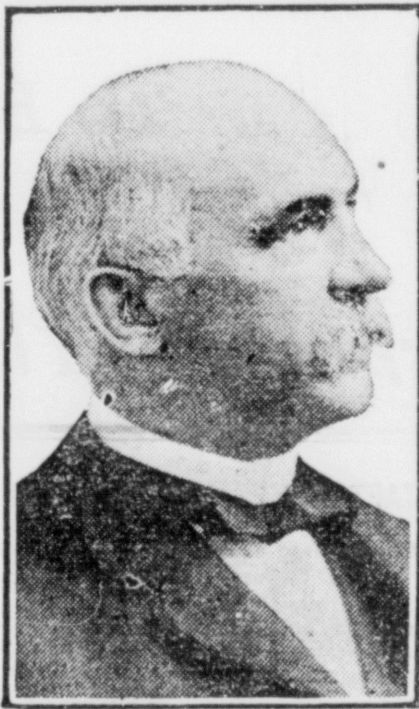

The services Saturday will be conducted by Rev. Ernest Saunders, pastor of the church. A special train will bring a large funeral party from New York.

ASKS FOR \$50,000 DAMAGES

First Suit Resulting From Sinking of
Titanic.

New York, May 3.—Papers in the first suit for damages brought by a relative of a Titanic victim were filed in the federal district court here. The suit, in admiralty, is brought by Mrs. Louise Robins, widow of Victor Robins, Colonel John Jacob Astor's valet, and is that in which the testimony of J. Bruce Ismay and officers of the sunken steamer is desired. It charges negligence on the part of the Oceanic Steam Navigation company and asks for \$50,000 damages and costs.

SENATOR BURNHAM.

One of the Conferees
On the Pension Measure.

ON BASIS OF SENATE BILL

Conferees Agree on General Service
Pension Measure.

Washington, May 3.—Conferees of both houses of congress on the general service pension bill reached an agreement on the basis of the senate bill with some increases for advanced age and length of service. This action is said to assure the enactment of the general service bill into law.

The conferees were Senators McCumber, Burnham and Gore and Representatives Sherwood, Adair and Sulloway. Messrs. Gore and Sulloway refused to sign the report, the former on the ground that the senate was conceding too much and the latter because it does not concede enough.

The increases grant \$18 a month to soldiers sixty-six years old who served two years and a half and \$19 to those who served three years. Those seventy years old who served one and a half years get \$21.50; two years \$23, two and a half years \$24; three years \$25. Those of seventy-five years who served one and a half years get \$27, and two and a half years \$30.

BUSY CONSIDERING
ADJOURNMENT PLANSLeaders in Congress Realize
Much Remains to Be Done.

Washington, May 3.—The leaders in congress are busy considering plans for adjournment. Many of them admit the prospect of completing the work of the session that is absolutely necessary in time to bring about an adjournment before June 15 is not greatly promising. Only about six weeks are left to execute this program. In that time much important business is to be transacted.

The Lorimer case is one of the matters that will have to be disposed of. It will provoke a lot of debate. The reports of the special committee have not yet been submitted. Republican leaders admit they cannot afford to allow this case to go over until the next session, with a political campaign intervening.

They say Roosevelt's victory in Illinois primarily was due to the Lorimer case, on which he made his campaign. It already has been charged on the senate floor that there is a plan to put the case over until the next session. This charge alone is sufficient, the leaders say, to compel the senate to force the case to a settlement before the adjournment of the present session or the Republicans would suffer in the campaign, especially in Illinois.

None of the tariff bills as yet has been passed and only one, the steel bill, has been given any important consideration. There is much yet to be said on that measure before a vote is taken. Most of the important appropriation bills have not been brought to the senate. Some of them have not even been reported in the house.

FLAG TRAMPLING "FRAMEUP"

Berger Says it Was Scheme to Injure
Socialists' Cause.

Washington, May 3.—Anarchists, not Socialists, were responsible for the flag trampling incident in New York during the May day celebration, according to Representative Berger of Wisconsin, the Socialist member of congress. He denounced it as a "frameup" by the Industrial Workers of the World to bring the Socialists' cause into disrepute.

"The men who did that were fools," declared Mr. Berger. "Socialism is not anti-national. The Socialists are the best patriots we have."

SUES FOR SUGAR DUTIES

Government Asks \$116,000 From Fed-
eral Refining Company.

New York, May 3.—Suit against the Federal Sugar Refining company for \$116,000 was filed by the government in the federal district court here. The amount represents alleged back duties on importation of sugar entered at the custom house between 1902 and 1909, a difference due to the recently discovered errors in the original liquidated weights.

HOUSE PASSES
VARIOUS BILLSMany Important Measures Deal
With the Tariff.

PUT IT UP TO THE SENATE.

Question Whether Much of the Proposed Legislation Is Too Radical Will Be Thashed Out There—Genuine Regret Over the Defeat of Senator Bourne of Oregon.

By ARTHUR W. DUNN.

Washington, May 3.—[Special.]—The Democrats are doing things. Not only have they passed several bills reducing the tariff, but they have also put over a great deal of legislation to the senate. Much of this legislation has been attached to appropriation bills in one form or another. The army bill was loaded with the most far-reaching and important measures for reorganizing the army that have been proposed for years. Other appropriation bills have also contained much in the way of legislation. However, it remained for the postoffice bill to be loaded with the most important legislation that has passed congress in many years.

The parcels post and the inauguration of a movement for spending federal money for roadmaking are epoch-making because of the important departure from past lines. The beginning of taking over of public utilities can be seen in the express legislation. The publication of so many names in connection with newspapers and periodicals is also far ahead of anything that has been attempted in the line of publicity in many years.

Is It Too Radical?

Of course the question to be threshed out in the senate is whether or not the proposed legislation is too radical; whether it does not open the way for a paternalistic government that the country will not want when it is tried. Whatever the verdict may be there will never be a retrograde movement. The good roads movement has been progressing year by year; the parcels post has been advancing; the movement toward government ownership of express companies and telegraph lines has been growing at a rapid pace. It is the tendency of the times.

Cowards in the House?

No one resents more than Mann, the minority leader, imputations upon the character of the house of representatives. "There are times," he said recently, "when I have the highest respect for the membership of this house and the house as a body. But there are times when I can see more cowards in the house than can be found in an equal number of men anywhere else in the country."

That was when they were not voting Mann's way. In fact, they were voting for what Mann thought were dangerous propositions in the postoffice bill. Mann would resent having any one else say the same thing about the house membership.

Halcyon Days For Uncle Joe. Now comes Bartlett of Georgia saying on the floor of the house: "We went before the country protesting against Cannon and his rules. We owe our majority in a great measure to that issue. But Cannon in his palmiest days of czarism, and Dalzell, so long head of the rules committee, never yet brought into this house a rule so far-reaching and revolutionary as this."

Bartlett was speaking of the rule which permitted so much legislation on the postoffice appropriation bill. Bartlett said very harsh things of Uncle Joe in days gone by, but now he and others like him find the former speaker quite a paragon in comparison with those who denounced him so strenuously. And Uncle Joe lives to enjoy it.

Mourn For Bourne.

Genuine regret prevailed over the defeat of Senator Bourne of Oregon. Leader of the progressives, ardent, insistent, hard working man for that cause, he never offended a regular, and the regulars were just as sorry for his defeat as any progressive. So were the Democrats. Bourne was very popular in the senate.

Drastic Liquor Law.

There is every indication that congress is going to give the country an object lesson in drastic liquor legislation which will demonstrate whether high license and strict regulation is better than prohibition. In Washington the number of saloons is to be reduced. They are to be taken out of the slums, the alleys and residence districts. They are to be removed from near schools or churches. They are to have screens removed from doors. They are greatly restricted as to sale of liquor to minors and habitual drunkards. That such a bill will pass there can be little doubt. In fact, a straight prohibition bill might pass this congress.

Rucker at His Best.

There has not been uttered in the house anything better than a speech of Congressman Rucker of Colorado in an effort to straighten out the complications which constantly arise because there is another, the man from Missouri. It took nearly three columns of the Congressional Record, but it was a gem in its way.

Worry.

"Stop worrying" is a physician's best prescription and the hardest to take.—Atchison Globe.

W. S. CARTER.

President of the Brother-
hood of Locomotive Firemen.

FIREMEN ALSO ASK RAISE

Make Demands on Fifty Roads East
of Chicago.

New York, May 3.—Following closely upon the agreement of the engineers and managers of the fifty railroads east of Chicago to submit to arbitration the demands of the engineers for increased wages and changes in their hours of work the locomotive firemen and hostlers of the same railroads submitted to the managers a schedule requesting additional pay, changes in hours and in some cases the employment of assistant firemen.

W. S. Carter of Peoria, Ill., president of the Brotherhood of Locomotive Firemen and Engineers, presented the demands to J. C. Stuart, chairman of the conference committee of the railroad managers, who told him the managers would be called to meet as soon as possible to discuss the matter.

TAFT LETTER STIRS
BRITISH STATESMENQuestion of Reciprocity Coming
Before Commons.

London, May 3.—Questions will be addressed to Premier Asquith directing his attention to the letter on reciprocity written by Mr. Taft to Theodore Roosevelt a year ago last January and recently made public; and suggesting the urgency of the policy for imperial preference to defeat American designs.

Another question, of which notice has been given, will ask whether the government was aware of President Taft's intention to "make Canada only an adjunct of the United States," when they instructed Ambassador Bryce to assist the passage of the reciprocity agreement between the United States and Canada. An effort will be made to raise the whole question on motion for an adjournment Monday evening.

ALLEN THREATENED TO KILL

Witness Says Bandit Intended Mur-
dering Foster if Convicted.

Wytheville, Va., May 3.—"I'll kill Bill Foster before the sun goes down tomorrow night if I'm convicted," Floyd Allen, the first of the Hillsville courthouse assassins now on trial here for his life, was charged with making this remark before the shooting on March 14, according to the testimony of I. B. Weddell of Montgomery, one of the first day's witnesses for the prosecution. On cross examination Weddell stuck to his story, though he admitted no other persons were present during his conversation with Allen.

Careless of Her.

"You look annoyed. What's the matter?"

"Bertha told me a secret the other day and I can't tell you what it is."

"Why not?"

"I've forgotten it."—Pele Mele.

TAFT WILL GIVE
BATTLE IN OHIO

POSTOFFICE BILL PASSES

Only Five Votes Against Measure in
the House.

Washington, May 3.—The postoffice appropriation bill, carrying approximately \$275,000,000, was passed by the house, 227 to 5. The measure carried in addition to the appropriations necessary for the conduct of the department a number of radical provisions.

Among these were federal aid for good roads, the compulsory publication by newspapers, magazines and periodicals of the names of owners and the establishment of a parcels post in connection with a rural free delivery system.

The good roads provision added between sixteen and eighteen million dollars to the appropriation and this amount, it is expected, materially will be increased in the next postoffice measure.

UNABLE TO REPAIR BREAK

Water Steadily Pouring Through
Levee in Louisiana.

New Orleans, May 3.—Hope of patching the break in the Mississippi river levee at Torras, La., expected to cause the worst situation in Lower Mississippi flood history, has been abandoned. Water is rushing through the 800-foot breach at the rate of twelve miles an hour and several small towns are inundated.

Baton Rouge has been made the concentration point for persons made homeless by the Torras break. Hundreds were taken there by steamboats that rescued them from places where they were marooned.

It is estimated that 115,000 homeless persons are being taken care of.

WILL BE HELD AT SEATTLE

Governors Call Northwestern Develop-
ment Congress.

Seattle, May 3.—Seven governors of Northwestern states issued a joint proclamation calling a Northwest Development congress to be held in Seattle June 3 to 8.

The congress is to plan a campaign and suggest legislation to assist the Northwestern states in a more rapid development and to stem the tide of emigration to Canada.

The proclamation was signed by M. E. Hayer, governor of Washington; O. A. Elberhart, Minnesota; John Burke, North Dakota; R. S. Vessey, South Dakota; Edwin Norris, Montana; J. H. Hawley, Idaho, and Oswald West, Oregon.

Snow Delays Farm Work.

Bozeman, Mont., May 3.—It has been snowing steadily for twenty-four hours here and the fall now is about eleven inches deep on the level. This is the third heavy snow storm in the Gallatin valley in the last three weeks and will delay farm work in this wheat belt. It probably will be May 15 before the ground is broken for spring crops.

MEXICO IS SEEKING PEACE

Committee From Chamber of Deputies
Will Consult With Orozco.

Mexico City, May 3.—A committee of the chamber of deputies was appointed by the speaker to work for the pacification of the country. A subcommittee will be chosen to go to the North and confer with the rebels under Orozco.

GRAIN AND PROVISION PRICES

President Intends Campaigning
in His Native State.

MAY MAKE DOZEN SPEECHES

Adverse Results in Illinois and Pennsylvania and the Close Run in Massachusetts Have Stirred the President and His Advisers to Renewed Activity to Capture Buckeye State Delegation.

Washington, May 3.—President Taft may spend ten days in Ohio, leading in person a desperate fight to hold his home state against Roosevelt. For weeks the Taft managers have been warned that the situation in Ohio was grave and that unless the most strenuous efforts were put forth by the administration forces Roosevelt would capture the big end of the state's delegation to the Chicago convention.

It seems that these warnings have made an impression and that plans are being laid for a whirlwind finish to the campaign such as was never contemplated in the earlier stages of the contest.

Nothing definite has been given out as to the president's itinerary, but it is known that plans have been made for the president to absent himself from the White House for at least ten days when he starts to Ohio next Monday. On his return from Georgia he is to go at once into Maryland and it has been announced that he will be in Cincinnati on Tuesday and Wednesday of next week.

Information has leaked out that in addition to this the president's managers are arranging to have him make at least a dozen speeches in various parts of Ohio and to remain four or five days in his home city, conducting a "front porch campaign," something after the fashion of the famous McKinley campaigning at Canton.

Delegations will be taken to Cincinnati from other Ohio cities to be presented to the president and influential party workers from all sections of the state will be called in for a final word from him before the primaries on May 21.

Friends Urging Campaign.

Early in the campaign President Taft is reported to have said that Ohio would take care of itself and to have refused to become excited over the growth of the Roosevelt movement in his home state. After the Illinois primary he was urged to pay more attention to Ohio and after the Roosevelt landslide in Pennsylvania this urging became more insistent.

The result in Massachusetts served to make the president's close advisers, like Senators Crane, Penrose, Root and Smoot and the Cannon leaders in the house, absolutely panicky about Ohio and it is said that members of this Taft campaign cabinet conveyed the intimation to the White House in unmistakable terms that unless the president could win a substantial majority of the delegates from his own state he might as well consider himself absolutely out of the race.

The president was told bluntly, it is said, that Roosevelt must be defeated and that if he could not do it the leaders of the regulars who have been backing him would try to find another candidate who might turn the trick. Chairman Barnes of New York has been most persistent in this third man movement and it is known that he is after delegates in all sections of the country to agree to support Justice Hughes when it becomes apparent that Taft cannot be nominated.

Hence the plans to storm Ohio in the closing days of the campaign. Colonel Roosevelt also will make a swing through the state and it promises to be a tight schack as Ohio has not witnessed in years. The Republicans of the state will be told that it is virtually up to them to decide whether Taft or Roosevelt shall be the nominee at Chicago.

MR. TAFT WANTS PROSPERITY

President Makes Two Speeches in
South Carolina.

Florence, S. C., May 3.—Although not on a campaign trip President Taft made two short speeches in South Carolina on his way to Washington from Augusta, Ga. He delivered the first at Sumter from the rear platform of his private car and the second at Florence. Big crowds greeted him at both places. The president preached prosperity and declared his opposition to doctrines he said would destroy that prosperity if written into law.

PUSHES BOY INTO BONFIRE

Demented Lad Dances While Compan-
ion Suffers Fatal Burns.

Milwaukee, May 3.—Willard Bahr, five years old, died from burns received when, it is alleged, he was pushed into a bonfire at the side of a railroad track near his home on the outskirts of the city by a sixteen-year-old neighbor boy, who, it is said, is demented.

The mother of the dead boy declares that eyewitnesses told her that after her boy was pushed into the fire repeatedly the lad who did the pushing stood around, shouted and danced while he burned.

Southeast Brainerd was agog with excitement last night, for some automobile had speeded so swiftly down Oak street that the policeman could not even catch the number as the machine whirled by. Before he caught a second breath the machine had turned on its way to the business district and passed him a second time at a constantly accelerated pace.

Old Pilsner style Brainerd beer. Famous for quality and purity. Delivered to any part of the city. Phone 213. 259tf

J. F. Vaughn was badly bruised in an auto accident this morning, the culmination of a series of exciting events. The story is told by one of the lady passengers is to the effect that Mr. and Mrs. Vaughn and Miss Virginia Alder were in the car driving down Oak street. Mr. Vaughn saw a runaway team coming towards him, stopped the machine and had the ladies get out. He tried to stop the runaways which belonged to Winfred Rardin but they avoided him and the auto. Mr. Rardin came up and Mr. Vaughn and Mr. Rardin chased the horses with the auto. In turning a corner they dodged a dog and Mr. Vaughn made so sharp a turn that he broke two side axles and all the gearing. The machine stopped short and Mr. Vaughn flew 20 feet. Rardin stuck to the auto. Mr. Vaughn was taken home for the doctor's care and Rardin ran down the street, captured his team and hitched them to the crippled auto and towed it down to the garage for repairs. "That's what comes of starting out on a long trip on a Friday morning," said Mr. Vaughn.

Wm. T. Topel, 602 3rd St., Bismark, N. D., tells of the benefits he derived from Foley Kidney Pills. "I suffered with intense pains in my back and sides, and my kidneys were very weak. I took Foley Kidney Pills and in a short time the pains left my body and my kidneys are well again. For this I am deeply grateful to Foley Kidney Pills." For sale by all druggists. mwf-w

MUSIC AND DRAMA

"Barriers Burned Away" has been made into a play by George Middleton, the dramatist, and is proving one of the most distinct dramatic successes of the season. It is booked for an engagement here Sunday, May 5th at the Brainerd opera house.

The play is under the direction of Messrs. Gilson & Bradfield, who, it is said have supplied it with an elaborate stage setting and an exceptional cast.

It tells a story of great and almost religious interest; the power of good that has been exercised by the book is truly wonderful. It is good to know that books and plays of this character are in the favor of the public, the popularity being demonstrated by the fact that this novel's readers are estimated in the threes of millions.

E. M. Markham, 521 W. Mill St., Winona, Minn., says: "Sometime ago I was afflicted with a severe case of kidney trouble, my kidneys were very weak, and the pain in my back was unbearable. I took Foley Kidney Pills and in a short time the pain left my back and my kidneys became stronger." For sale by all druggists.

FEDERAL HELP FOR THE FARMER

Department of Agriculture to Demonstrate in North.

COUNTRY TO BE DIVIDED.

Plans Under Way For Similar Work in All Sections—Co-operation of the States—Local Governments to Do Most of Experimenting.

Demonstration work on the northern farms will be started by the department of agriculture this summer. This is the outgrowth of the work started in the south by the late Dr. S. A. Knapp. The demonstration work now embraces about 60,000 southern farms. There has been a persistent call for similar work in the north, and the department of agriculture has decided to work out a comprehensive plan for the whole country.

In a general way the country will be divided into five sections. These will be the north Atlantic, the south Atlantic, the north central, the south central and the western. These sections will be under a section superintendent and an assistant, both of whom will be as high grade scientific farmers as the department can procure. These five main sections of the country will be divided into districts, each covering more than one state. The district work will be under one federal officer. Under him will come the state and county superintendents and agents, who will be state officials.

States to Do the Work.

Many of the states have already arranged to co-operate with the federal government in the demonstration work and have made appropriations and arranged for the counties to raise funds. Congress has been so much impressed by the outlook that it appropriated \$50,000 in the house to aid this work, and when the bill went to the senate \$65,000 more was added. With the original money this will make about \$250,000 available this year.

The federal government is going to aim at having as much of the actual work as possible done by the states and counties. The department of agriculture has solved many problems generally affecting wide regions and will work on more of the same sort, but when it comes down to dealing with state and local conditions the work will be left to the state and county officials.

The problem of demonstration farming will be harder and more complicated in the north than it was in the south. There it was largely a case of introducing diversified farming to make up for the ravages of the cotton boll weevil. But in the north there is already diversified farming, and there will be the questions of labor, both human and animal; crop rotation, intensive cultivation and a lot of scientific details such as the departments has been working out for a long time, but has seldom had a chance to try on an extensive scale under real field conditions.

May Eliminate Alkali.

One of the important features for experiment in the western section is the elimination of alkali from irrigated land. Ever since irrigation began to be practiced in the west there has been trouble with alkali. In some sections it is worse than others, but the general experience of farming communities is that there is always more or less trouble with alkali after a long term of irrigation farming.

An important piece of information was found by Professor Swingle of the department in a recent visit to Spain. There he found one section of the country where irrigation had been practiced ever since settlement and where there was no alkali trouble. The explanation seemed to be in the fact that there was a very small supply of water available for the land to be worked and the farmers had to stretch each spoonful of water to the utmost. This gave a clue to the most of the trouble in the west, which seems to be simply too much water. The habit in this country is to be wasteful and to go to extremes with everything, and it appears that the use of water in irrigation is no exception. It is thought that by following the line of the Spaniards in the more economical use of water not only can the same amount of water be made to serve a great deal more land, but much of the alkali trouble can be obviated.

TAFT NAMES WOMAN CHIEF.

Miss Lathrop of Chicago to Head New Children's Bureau.

Miss Julia C. Lathrop of Chicago, an associate of Jane Addams in the work at Hull House, a member of the Illinois board of charity and a graduate and trustee of Vassar college, has been appointed by President Taft as chief of the new children's bureau in the department of commerce and labor.

Miss Lathrop is the first woman to be made a bureau chief in the government service.

Demand For the Yucatan Chicle.

There is a great and opening demand for the Yucatan chicle, a kind of wood which resists decay to a wonderful degree. It is particularly in demand for railway ties, as it lasts an indefinite time in the ground. The gum of the tree is made into chewing gum.

MOTHER! WATCH THE CHILDREN'S BOWELS

If Cross, Sick, Feverish, Bilious or Tongue is Coated Give Delicious "Syrup of Figs"

No matter what ails your child, a gentle, thorough laxative physic should always be the first treatment given.

If your child isn't feeling well; resting nicely; eating regularly and acting naturally it is a sure sign that it's little stomach, liver and bowels are filled with foul, constipated waste matter and need a gentle, thorough cleansing at once.

When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhea, sore throat, full of cold, tongue coated; give a teaspoonful of the clogged up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious fig taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggists for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

A Japanese Decoration.

Speaking of New Year's celebrations in Japan, the American Traveler's Gazette says: "Before each house entrance stand two pines, on the right a red stemmed one and on the left a black pine. Beside the pine trees stand slender bamboo canes, and the trees are joined above with a festoon of paper fringe and straw rope, ornamented with yellow, bitter oranges, bits of charcoal, lobsters and large bunches of red berries. This decoration is supposed to bring good luck."

FEDERAL HELP FOR THE FARMER

Department of Agriculture to Demonstrate in North.

COUNTRY TO BE DIVIDED.

Plans Under Way For Similar Work In All Sections—Co-operation of the States—Local Governments to Do Most of Experimenting.

Demonstration work on the northern farms will be started by the department of agriculture this summer. This is the outgrowth of the work started in the south by the late Dr. S. A. Knapp. The demonstration work now embraces about 60,000 southern farms. There has been a persistent call for similar work in the north, and the department of agriculture has decided to work out a comprehensive plan for the whole country.

In a general way the country will be divided into five sections. These will be the north Atlantic, the south Atlantic, the north central, the south central and the western. These sections will be under a section superintendent and an assistant, both of whom will be as high grade scientific farmers as the department can procure. These five main sections of the country will be divided into districts, each covering more than one state. The district work will be under one federal officer. Under him will come the state and county superintendents and agents, who will be state officials.

States to Do the Work.

Many of the states have already arranged to co-operate with the federal government in the demonstration work and have made appropriations and arranged for the counties to raise funds. Congress has been so much impressed by the outlook that it appropriated \$50,000 in the house to aid this work, and when the bill went to the senate \$65,000 more was added. With the original money this will make about \$250,000 available this year.

The federal government is going to aim at having as much of the actual work as possible done by the states and counties. The department of agriculture has solved many problems generally affecting wide regions and will work on more of the same sort, but when it comes down to dealing with state and local conditions the work will be left to the state and county officials.

The problem of demonstration farming will be harder and more complicated in the north than it was in the south. There it was largely a case of introducing diversified farming to make up for the ravages of the cotton boll weevil. But in the north there is already diversified farming, and there will be the questions of labor, both human and animal; crop rotation, intensive cultivation and a lot of scientific details such as the department has been working out for a long time, but has seldom had a chance to try on an extensive scale under real field conditions.

May Eliminate Alkali.

One of the important features for experiment in the western section is the elimination of alkali from irrigated land. Ever since irrigation began to be practiced in the west there has been trouble with alkali. In some sections it is worse than others, but the general experience of farming communities is that there is always more or less trouble with alkali after a long term of irrigation farming.

An important piece of information was found by Professor Swingle of the department in a recent visit to Spain. There he found one section of the country where irrigation had been practiced ever since settlement and where there was no alkali trouble. The explanation seemed to be in the fact that there was a very small supply of water available for the land to be worked and the farmers had to stretch each spoonful of water to the utmost. This gave a clue to the most of the trouble in the west, which seems to be simply too much water. The habit in this country is to be wasteful and to go to extremes with everything, and it appears that the use of water in irrigation is no exception. It is thought that by following the line of the Spaniards in the more economical use of water not only can the same amount of water be made to serve a great deal more land, but much of the alkali trouble can be obviated.

FRIDAY, MAY 3, 1912

RIVER AND HARBOR BILL IS REPORTED

Gives Gull Lake \$15,000 and Warroad \$13,200—Surveys Ordered for the Lakes

MILLE LACS LAKE SURVEY

A Dam to be Constructed at or Near Onamia Across the Rum River to Create Reservoir

A Washington dispatch to the Duluth Herald states that the river and harbor bill, which was reported to the senate yesterday by Senator Nelson, carries an appropriation of \$15,000 for the completion of Gull Lake reservoir at the head water of the Mississippi river.

The appropriation for the improvement of Warroad harbor in Lake of the Woods was increased by Senator Nelson from \$3,200 to \$13,200.

On representation made by Representative Miller, the bill directs the chief of engineers to make a survey of Mille Lacs lake and Onamia lake with a view of improving the navigability of the Mississippi river by constructing a dam across Rum river at or near Onamia and thereby creating a reservoir in said lakes.

The bill carries \$8,064,010 in addition to the appropriations provided for by the house, and aggregates \$32,126,530. The largest increase to the house measure was \$2,500,000 for the Mississippi river, making \$6,000,000 for that waterway.

SOCIAL EVENTS

Mrs. Charles Metcalf was pleasantly surprised on the occasion of her 79th birthday at her home, 224 North Seventh street. The party, visiting her numbered 10 ladies and gentlemen and a pleasant afternoon was spent. She received many bouquets of flowers, and the presents also numbered a souvenir spoon, the presentation speech being made by Rev. J. R. Alten. A luncheon was served in the afternoon.

G. E. Calhoun, 804 W. 3rd St., Sioux Falls, N. D., says: "I had a bad case of kidney trouble and suffered greatly with severe pains in my back. The action of the kidneys was very irregular and painful. I took Foley Kidney Pills and in a few days the pain left and the kidney action was corrected. I am now well and gladly recommend Foley Kidney Pills." For sale by all druggists.

Money to Loan

The Northwestern Building Association of Fergus Falls loans money on real estate in the towns and villages of Crow Wing county. If you want to buy, build or take up the mortgage now on your property write for information.

CUYUNA NORTHERN MAY BE EXTENDED

Special to Dispatch:—Deerwood, Minn., May 3—Rumors are circulated to the effect that the Cuyuna Northern railway may build an extension six miles west from the Adams mine in the direction of Brainerd. All the camps used by the construction crews remain in the vicinity of Oreland and it is rumored construction work will commence some time in the summer.

Chief Engineer Egan would not give any information about the proposed extension and denied any knowledge about any intended railway work.

A Mother's Care

A careful mother will not give her child a medicine without knowing it is pure, contains no opiates, and has healing and curative qualities. Such a medicine is Foley's Honey and Tar Compound for croup, whooping cough, bronchitis, and all affections of the throat, chest, and lungs. Best and safest for children and grown persons. Contains no opiates. For sale by all druggists.

CUYUNA RANGE REVIEW

George Reid, of the Duluth Herald, Writing up Range Review to Appear This Month

George Reid, a special writer of the Duluth Herald staff, is covering the Cuyuna iron range and will write a review of present conditions which will appear in the Herald on or about May 14. In dealing with the developments of northern Minnesota Mr. Reid pays particular attention to the mining industry, but he does not neglect the fertile farm lands overlying the ore bodies and in various descriptions always weaves in the agricultural possibilities of this section of the country.

He will remain several days in Brainerd and this vicinity. Mr. Reid is well known in this line of work, having written up the Vermilion and Mesabi ranges in former years.

Mrs. T. A. Town, wife of a well known citizen of Watertown, S. D., writes: "About four years ago I had a severe case of lagrippe and the doctor prescribed Foley's Honey and Tar Compound, and it soon overcame the lagrippe. When any of my four children have a cold, I never think of any other medicine except Foley's Honey and Tar Compound for I can always depend upon its curing them." For sale by all druggists.

INSPECTED GAS PRODUCER PLANT

Committee of Mayville, N. D., Council and Citizens Looked at Power Plant

TOWN WANTS TO INSTALL ONE

Committee Did Not Seem to be Favorably Impressed With Conditions in Brainerd

A committee of Mayville, N. D., citizens visited Brainerd yesterday and inspected the gas producer plant of the National Heat, Light & Power Co. on Laurel street.

The delegation was headed by K. S. Groth, cashier of the bank at Mayville, N. D., and by his brother, Bert Groth, an alderman of the town. All the gentlemen were well known to Fred A. Farrar, cashier of the First National bank of Brainerd, for Mr. Farrar has a large farm six miles north of Mayville and spends some time each year in the Dakota city, being as well known there as he is in Brainerd.

The committee mentioned that their old plant, a steam outfit, had worn out and they wished to replace it with something modern and something which would burn less coal. A gas producer plant had been offered by some of the Dakota people and so a committee of the council and the citizens was appointed by the mayor and they had made a tour of various cities, inspecting the gas and other plants.

The fame of Brainerd's gas producer plant had penetrated over the whole country and they had some time left and concluded to see Brainerd's plant. They looked at the battle scarred scrubber tank whose 200 pound cover performed three aerial flights; they saw the twisted roof trusses where the cover had hit its highest altitude in the last tour de force; they saw the levathan gas engine which has never given satisfaction; and they were struck with the good service rendered by the little tandem gas engine which has virtually carried the city of Brainerd in the way of furnishing light and power 14 to 20 hours per day.

Then the committee interviewed various citizens of Brainerd about the local plant and they wondered why they saw so many smiling faces whenever gas was mentioned.

To be fair, however, it must be stated that the committee found an occasional gas plant in a small town which did work satisfactorily or apparently so. In their tour they had visited Iowa, North and South Dakota and Minnesota.

Henry Ferris, Hadar, Neb., is an old friend of Foley's Honey and Tar Compound. He writes: "I have used Foley's Honey and Tar Compound for more than twenty years and can honestly recommend it to anyone needing a good cough medicine. I think Foley's Honey and Tar Compound is without an equal." For sale by all druggists.

His First Time.

The best man was doing his best to make the groom brace up. "Where's your nerve, old man?" he asked. "Why, you're shaking like a leaf." "I know I am," chuckled the groom. "But this is a nerve wrecking time for me. I've got some excuse to be frightened, haven't I? I've never been married before." "Of course you haven't," soothed the prospective father-in-law. "If you had you'd be a great deal more scared than you are."—Pearson's.

MINING NEWS OF THE RANGE

Steamer Wickwire, First Ore Boat of Season, Leaves Superior May 5 With 8000 Tons

KENNEDY LOADS 20 CARS DAILY

Steam Shovel for Kennedy Mine—Iron Mountain Mining Co's Good Record

The steamer Wickwire, the first ore boat of the season, will leave Superior for down the lakes on May 5th carrying 8,000 tons, some of it Cuyuna iron ore.

At the Kennedy mine in Cuyuna ore is being hoisted from the mine and loaded directly into waiting ore cars, 20 cars a day being loaded in this manner. The Kennedy has a steam shovel coming from the Mesa range and as soon as it is placed in position 60 cars a day will be loaded by the shovel and two trains of ore will leave the Kennedy daily for Superior. The steam shovel will be loading from the stock pile within the next two weeks.

Tracks have been completed to the Armour No. 1 and the Armour No. 2 mines.

Some water was encountered at the Armour No. 1 mine, but the matter was speedily adjusted and full crews promptly resumed.

In the last three weeks there has been a growing demand for pig iron and sagging prices have braced up. General Manager Chester D. Tripp, of Chicago, inspected the Rogers, Brown Ore Co. this week, returning to his home city Wednesday evening.

The Adams shaft sinking near Oreland was held up some time when a seam of hard pan was struck. 250 tons of pig iron were placed on the shaft and she gradually went through the barrier and sank 10 inches. All the concrete needed has been set and it was necessary to add the pig iron in order to increase the weight of the shaft. One hundred or more men are on the pay roll at the mine and the money disbursed monthly amounts to from \$8,000 to \$10,000.

The M. A. Hanna Co. will commence work on their first shaft of the Barrows mine about May 15th. The second shaft is down to ledge.

The Magnan Iron Co., where Gaylord & Guith are drilling, adjoining the property of the Cuyuna-Mille Lacs Mining Co., is reported to have encountered 62 per cent ore at a depth of 60 and 70 feet.

The shaft of the Iron Mountain Mining Co. in section 33, township 47, range 29, is now down 56 1/2 feet and about 6 feet from the ore. The shaft is a drop shaft measuring 8 by 10 feet. B. F. Forrestal, of Duluth, the vice president of the company, exercises supervision over the work of mining and exploration and in an interview stated he believed their shaft had cost one-third less than any other shafts in the neighborhood.

Good progress has been made in the work of sinking and no serious obstacles have been encountered. A large camp of men is located near the shaft, with its complement of buildings including the blacksmith shop, carpenter shop and other necessary structures. Drills are also maintained by the company on its property and the work of mining and of exploration proceeds continuously.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

Ruined His Stomach For Science.

One of the most singular stories about the great nervous specialist Dr. Brown-Sequard was the way in which he saved his nerves for science, but injured his stomach for the same cause. "I never smoke," he once said, "because I have seen the most evident proofs of the injurious effects of tobacco on the nervous system." But his desire to investigate the contents of his own stomach by swallowing sponges to which a thread was tied and pulling them up to examine the gastric juice which they had absorbed brought on a rare affection, known as mercurism, or rumination, which compelled him to masticate his food a second time.

Constituents of Soot.

Soot consists chiefly of carbon, tar and mineral matter, with smaller proportions of sulphur and nitrogenous compounds, and frequently has an acid reaction. The proportion of the various constituents varies greatly with different factors, such as the nature of the coal, the completeness of combustion and the distance from the fire at which the soot was deposited.

RIVER AND HARBOR BILL IS REPORTED

Gives Gull Lake \$15,000 and Warroad \$13,200—Surveys Ordered for the Lakes

MILLE LACS LAKE SURVEY

A Dam to be Constructed at or Near Onamia Across the Rum River to Create Reservoir

A Washington dispatch to the Duluth Herald states that the river and harbor bill, which was reported to the senate yesterday by Senator Nelson, carries an appropriation of \$15,000 for the completion of Gull Lake reservoir at the head water of the Mississippi river.

The appropriation for the improvement of Warroad harbor in Lake of the Woods was increased by Senator Nelson from \$3,200 to \$13,200.

On representation made by Representative Miller, the bill directs the chief of engineers to make a survey of Mille Lacs lake and Onamia lake with a view of improving the navigability of the Mississippi river by constructing a dam across Rum river at or near Onamia and thereby creating a reservoir in said lakes.

The bill carries \$8,064,010 in addition to the appropriations provided for by the house, and aggregates \$32,126,530. The largest increase to the house measure was \$2,500,000 for the Mississippi river, making \$6,000,000 for that waterway.

SOCIAL EVENTS

Mrs. Charles Metcalf was pleasantly surprised on the occasion of her 79th birthday at her home, 224 North Seventh street. The party, visiting her numbered 10 ladies and gentlemen and a pleasant afternoon was spent. She received many bouquets of flowers, and the presents also numbered a souvenir spoon, the presentation speech being made by Rev. J. R. Allen. A luncheon was served in the afternoon.

BRUSH AND GRASS FIRE AT ORELAND

Flames Threatens Hotel, Lumber Piles and Railway Camp Along the Cuyuna Northern

GOODS THROWN ON RIGHT OF WAY

Rabbits Run in Swarms Ahead of the Roaring Fire Seeking Shelter and Many Succumb

Oreland, Minn., May 3—A big brush and grass fire threatened the town of Oreland and every man and woman in and near the townsite fought for hours to save their property from destruction. Numerous back fires were started and tracts were plowed to save the hotel, the lumber piles and the small houses belonging to the construction gangs working along the Cuyuna Northern railway. The smoke was very dense and the flames drove before them swarms of rabbits and other animals aimlessly seeking shelter from the fiery blast which threatened to annihilate them. The families near the railway threw their household goods on the right of way and then worked vigorously to save their homes. The wind was blowing a gale and sparks and embers were carried a long distance.

Pete Moe is grading with a full crew and has a number of slushers and wheel scrapers at work. Stumps which blocked his path have been blown away by dynamite.

Plastering has commenced in the hotel.

The Cuyuna Northern railway is in fine shape, having been ballasted its entire length.

O. H. Sjoedin, of Aitkin, has bought two lots on Central avenue.

C. E. Lucas will soon commence the erection of a residence and remove his family from Milwaukee, Wis., to Oreland.

The hotel is being wired for electric lights and as soon as the Cuyuna Range Power Co. sets the necessary poles the current will be transmitted from Deerwood to Oreland.

John Rundquist, who graded part of the Cuyuna Northern, has a construction job on a section of the electric line to be built between Hibbing and Virginia.

BABY SLEEPS ALL NIGHT LONG

Mr. W. H. Longworth, Pastor, Orient Congregational Church, Orient, N. Y., writes:

"I just want to write a word of appreciation of your baby food. Our boy is one year old, weighs 25 lbs., and has never had a sick day since we began feeding him Mellin's Food. At three weeks of age his mother's milk did not seem to agree with him. So we began giving him Mellin's Food, and from that day he never kept us up one hour at night. He has not even ever had the colic."

Mrs. R. M. Jones, Philadelphia, Pa., writes: "I am using Mellin's Food and our baby is gaining steadily in health and weight. Previous to using Mellin's Food I tried a number of other foods, but none of them agreed with him, he kept losing in weight all the time. I am happy to say that Mellin's Food has restored our baby to perfect health."

Write for a free sample of Mellin's Food to try.

WANT VOLUNTEER FIRE DEPARTMENT

Steps to be Taken by Crosby Council and Commercial Club to Form Company

1,000 FEET HOSE TO BE BOUGHT

Crosby is Such a Healthy Town That it Has No Cemetery—Nor Has it Dumping Ground

Crosby, Minn., May 3—At a meeting of the Crosby Commercial club and later at a council meeting, steps were taken to form a volunteer fire department in Crosby. One thousand feet of fire hose will be bought. Many are in favor of issuing \$5,000 bonds in order to erect a fire hall and buy needed apparatus.

Crosby is such a healthy town that it has no cemetery. Another thing needed somewhere in the vicinity is a good dumping ground. The town is perfectly level and there are no ravines or gullies that could be filled with refuse.

Mr. and Mrs. Chester D. Tripp have returned to Chicago. Arrangements have been made at their Serpent lake home for their stay during the summer season. A telephone will be installed and other conveniences added. Mr. Tripp who is the general manager of the Rogers, Brown Ore Co., was much pleased with the progress visible in the town.

William A. Deering, of Minneapolis, is visiting his son, William C. Deering, the manager of the Dower Lumber Co.

Construction work has started on the Presbyterian church on First street south and east of Cross avenue. Bishop Morrison, of Duluth, has been in Crosby making preliminary arrangements for the building of an Episcopal church.

A. J. McLennan, the private secretary of George H. Crosby, visited Crosby this week.

The elder Mr. Ingalls, of the Ingalls Motor Boat Co., has a hot bed near his home containing radishes, celery, cabbages and tomatoes. He has cleared a half acre near the boat dock and will have a fine truck garden there.

R. H. Warren has secured Hudson, Hollister, Lattimer, Ike Fawcett, Martin and Lovdahl to play on the Crosby baseball team. The boys are practicing every afternoon and evening and would rather play than eat.

The Linneman Clothing Co. has placed a large new sign in position. The company is doing a good business and carries a large stock of up to date merchandise.

The Lovdahl drug store has almost doubled its floor space. Three new show cases have been added and the stock carried is being increased.

Mrs. John L. Norris, of Cedar Lake, Scott county, is visiting her sister,

Mrs. W. A. Guith. Mr. Guith recently purchased a Rambler car and Mrs. Morrison made the trip from Minneapolis to Crosby with Mr. and Mrs. Guith. Miss Mamie Marinar and Mike Marinar, of St. Paul, will visit them in the near future.

Arthur Maunula is building a three story and basement store building and boarding house measuring 24 by 60 feet and will remove his Main street store to the new building on First street south.

Gust Hill is building a residence. Edward Krueger has a fine furniture store in the Brink block and carries a good stock of rugs, carpets and furniture. His display room measures 24 by 106 feet.

SICK, UPSET STOMACH

A Little Diapepsin Will Make Indigestion, Heartburn or Dyspepsia Go in Five Minutes

If you had some Diapepsin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine.

This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store waiting for you.

These large 50-cent cases of Pape's Diapepsin contain more than sufficient to thoroughly cure almost any case of Dyspepsia, indigestion or any other stomach disturbance.

PERFECT WISDOM.
Perfect wisdom hath four parts, namely—wisdom, the principle of doing things aright; justice, the principle of doing things equally in public and in private; fortitude, the principle of not flying danger, but meeting it, and temperance, the principle of subduing desires and living moderately.—Plato.

VIKINGS SANG DOG SONG.

Knute Nelson Says Clark's Ozark Tune Is an Old Swedish Melody.

Senator Knute Nelson, who is a Norseman, declares that Champ Clark's campaign anthem, "The Houn' Dawg of the Ozarks," is not a Democratic tune at all, but a base imitation of an old Swedish viking song. His fathers, he says, often went to victory with that tune in their ears. The senator's version follows:

Nær jag kom till stadens grin
Polkar sparkar hunden rinsky
Det gör de samma om han aer blott hun.
De moete sluta att sparka honom rundt.

A literal translation, which save for the meter is almost word for word the song they sing in the Ozarks, goes like this:

I came to the city's gate.
The boys chased my dog.
This they did, though he's only a hound—
They must stop kicking my dog around.

The song can be traced as far back as the year 1200 and was probably old then. The senator refers all requests for the singing of the song to representative Lobeck of Nebraska. Mr. Lobeck is a Swede, and the senator says he can sing.

Medicinal Honey.

There is a common belief in Mexico that wild honey possesses medicinal properties, particularly that lived by a certain small stingless bee. This insect, the size of a housefly, is domesticated and given a gourd for a hive. The wax is almost black. When allowed to remain wild these bees build combs in cracks in the ground or fissures of rocks or trunks of trees.

Two new ones at

WHITE BROS.

1. The Automatic heat regulator and current saver
A-BEST-O ELECTRIC SAD IRON

Come in and see it and let us explain its current saving feature and the automatic control which keeps it always at a certain heat.

2. **O-CEDAR POLISH OIL MOP**

The finest article known for cleaning and dusting highly polished floors and woodwork.

We will be pleased to let either article out on trial

Buy Shirts That Are Roomy With Plenty of Arm-Swing

WHEN you buy a Patrick-Duluth negligee shirt you buy absolute shirt comfort. There is no binding under the arms, no tightening at the neck, nothing but the highest and best in comfort and worth.

They have won the enthusiastic approval of the men of the Northwest—real men who want good values

Negligee or Dress Shirts

These are the stylish shirts. Fabrics made for men's shirts—rich coloring, (not gaudy)—materials soft and beautiful but hard as iron in wearing quality. Ask your dealer for Patrick-Duluth Shirts, men's and women's hosiery, shirts, corsets, everything for the wardrobe. Be sure they bear the Patrick trademark. It's your protection for quality. There is sure to be a Patrick-dealer in your town. Send us a postal today for our Quality Book. Address
